

Our Expertise

- Cell biology experts with decades of cell isolation, cell culture media, and transfection experience
- Lonza CellBio Services offers tailored methods and custom services to meet your unique research needs
- Lonza's CellBio Services include:
 - Custom cell isolation
 - Custom cell culture and testing services
 - Custom research media and reagents
 - Transfection services
 - RNA and DNA services

Custom Cell Isolation Services

- Over 30 years of experience in primary cell isolation
- Extensive network of ethically procured tissue with documented donor consent
- Available from wide range of species and diseases
- Fully customizable donor requirements
- Cell products available in a variety of formats:
 - Fresh (plated or suspension)
 - Cryopreserved (cell suspension or pellet)
 - RNA/DNA isolation

Custom Research Media and Reagents

- Over 40 years of cell culture media formulation and manufacturing experience
- Custom media for research use
 - Liquid: 500 ml to 10,000 L
 - Powder: 1 kg to 7,000 kg
- Pilot production facility for small volume or evaluation batches (40L-100L)
- Variations of Lonza catalog products
- Custom fill sizes and packaging (vials, bottles, bags, drums, etc)
