

Custom Media and Buffer Quote Request Form

Note: This form is intended for basic quote requests and custom production design input. Based on the complexity of the request, Lonza reserves the right to require submission of CPR long form #Group-10873.

Section 1: Contact information

Company Name:

Shipping Address:

Contact Name:

Contact Phone:

Contact email:

Section 2: Intended use

The intended use you claim will affect the classification of your device. It also ensures that Lonza is manufacturing your product according to this classification.

Note: Lonza custom media products are for use only in laboratory research or for further manufacturing. Products have not been qualified for use directly in animals, for diagnostic or therapeutic applications or used directly in humans for any purpose. Uses other than the labeled intended use (e.g. Research Use Only, For Further Manufacturing,...) may require further evaluation. We reserve the right to accept or decline an order based on the customer's intended use.

Section 3: Product Formulation

Only previously, manufactured formulations with a maximum of 3 changes may be entered. Raw materials are sourced from current standard inventory procured from Lonza qualified vendors.

SKU (Lonza Part Code):

Formulation change (maximum of 3 changes):

Add:

Delete:

QC testing:

Same testing as original SKU

Testing modifications:

Section 4: Packaging

Bottles:

Secondary Packaging for bottles is cardboard boxes.

Fill Volume:

Quantity to produce:

Bags:

Multiple units may be packaged in the secondary packaging.

Fill Volume:

Quantity to produce:

Secondary Packaging for 2D bags ≤ 20L:

Cardboard:

Plastic:

Label Requirements:

Note: Label will include the standard Lonza product description, storage temperature, date of production and expiry date* unless otherwise noted or the intended use is not consistent with standard product.

*Product expiry is assigned only in cases where sufficient data exists to support a valid shelf life for the requested formulation and packaging.

Section 5: Shipping

Shipping conditions will be same as the original product (SKU) in most cases.
If you require specific shipping conditions, please contact your account manager.
Certificates of Analysis will be included with all shipments.

All orders made following this request are subject to confirmation of final requirements and related feasibility review.
