WinKQCL™ 6 License Agreement

This WinKQCL™ 6 License Agreement ("License") defines the license for use according to the license defined on the license label. The license label indicates whether the license purchased is a "workgroup" license or an "instrument" license. This license agreement entitles the user ("Purchaser" or "you") to one (1) "instrument" license or one (1) "workgroup" license (defined in item 1 below). A minimum of one (1) "instrument" license and one (1) "workgroup" license must be purchased to be able to use the WinKQCL™ 6 Endotoxin Detection Software, a product of Lonza Walkersville, Inc. ("Licensor"). The license sets forth the terms and conditions under which Purchaser agrees to limit its use of WinKQCL™ 6 Software. Purchaser's affirmative use of the unique installation code associated with the licenses identified below and its subsequent use of the instruments with the WinKQCL™ Software indicates Purchaser's acceptance of the terms and conditions of this License. If you do not agree to all of the terms and conditions of this License, then: (a) do not use the WinKQCL™ Software with an instrument, and (b) if you paid Licensor or an authorized distributor for a package consisting of one or more copies of the WinKQCL™ Software containing the License, you may return the complete package unused, within thirty (30) days after purchase, for a full refund of your paid purchase price.

1. License Grant. Licensor hereby grants to Purchaser, and Purchaser accepts, a nonexclusive license to use the WinKQCL™ 6 Software and WinKQCL™ 6 Software tools and the accompanying User Documentation.

If an "instrument" license has been purchased, the software may be used in concert with one (1) instrument. This License allows you to connect the computer to one (1) instrument through either a wired or wireless connection method. An instrument is defined as a single microplate reader device, such as a 96-well microplate reader. In the event that you intend to use the software to communicate and control more than one instrument connected to one or more computers, you must have one license for each instrument operated or accessed by the software. For instance, if eight (8) different instruments will be operated by the software or have access to the software or its databases, eight (8) separate licenses must be purchased, regardless of whether the eight (8) instruments will communicate with the software at different times or concurrently.

If a "workgroup" license has been purchased, the software may be used in concert with one (1) user group. The workgroup license allows the data for one (1) user group to be segregated from data from other workgroups. A single workgroup license allows configuration of a single "workgroup" in the WinKQCL™ Software. One workgroup license must be purchased for each user group at each site connected to the central WinKQCL™ database within a company. For example, at a given company if a process development lab and a quality control lab are at company location A, and another quality control group is at location B, a total of three (3) workgroup licenses must be purchased to configure a workgroup in WinKQCL™ for each lab.

Upon configuring one (1) reader and one (1) workgroup in the WinKQCL™ database, this License allows you to install the WinKQCL™ client software on all computers on your WinKQCL™ 6 network that are connected to information stored in the central WinKQCL™ database.

You agree that you cannot, and will not, assign, sublicense, transfer, pledge, lease, rent, or share your rights under this License, nor will you make access to the software available to others in connection with a service bureau, application service provider, or similar business, nor permit anyone else to do so.

Upon loading the software into a computer as authorized herein, you may retain the copy for backup purposes. In addition, you may retain a copy of the software for backup purposes. You may make one copy of the User's Manual for backup purposes. Any such copies of the software and/or the User's Manual shall not be otherwise modified in any form, and must include Licensor's copyright and other proprietary notices. Except as authorized under this paragraph, no copies of the software or any portions thereof may be made by you or any person under your authority or control.

2. Licensor's Rights. You acknowledge and agree that the software and accompanying materials (e.g., including but not limited to the User's Manual) are proprietary products of Licensor protected under U.S. and state laws, e.g., patent, trademark, and copyright laws, and the Uniform Computer Information Transactions Act. You further acknowledge and agree that all right, title, and interest in and to the software, including associated intellectual property rights, are and shall remain with Licensor. This License does not convey to you an interest in or to the software, but only a limited right of use revocable in accordance with the terms of this License. You agree that you will not reverse engineer, disassemble, reverse compile, or otherwise translate the software. All rights not specifically granted herein are reserved to the owner of the software.

3. License Fees. The license fees paid by you are paid in consideration of the rights granted under this License.

4. Term and Termination. This License is effective upon your affirmative use of the unique installation code associated with the license number. The term of this License shall be perpetual unless sooner terminated pursuant to the terms hereof. If you materially breach this License, Licensor may immediately terminate your rights under this License in whole by written notice to you. You agree that, upon termination of the License for any reason, you shall have no further right or license to use the software with the instrument.

5. Limited Warranty. THE SOFTWARE AND ITS OPERATION WITH THE INSTRUMENT ARE LICENSED "AS IS," AND LICENSOR DISCLAIMS ANY AND ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

You acknowledge that good data processing procedure dictates that any program, including the software and its interaction with an instrument, must be thoroughly tested with non-critical data before there is any reliance on it, and you hereby assume the entire risk of all use of an instrument with the software covered by this License. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. If implied warranties may not be disclaimed under applicable law, then ANY IMPLIED WARRANTIES ARE LIMITED IN DURATION TO 30 DAYS AFTER DELIVERY OF THIS COPY OF THE SOFTWARE TO YOU.

6. Limitation of Liability. Licensor's cumulative liability to you or any other party for any loss or damages resulting from any claims, demands, or actions arising out of or relating to this License, your use of the software with an instrument, and/or your relationship with Licensor shall not exceed the license fee paid to Licensor for this License. In no event shall Licensor or its principals, shareholders, officers, employees, affiliates, contractors, subsidiaries, and/or parent organizations be liable for any indirect, incidental, consequential, special, punitive, or exemplary damages or lost profits, even if Licensor has been advised of the possibility of such damages. In addition, in no event does Licensor authorize you or anyone else to use the software in applications or systems where the software's failure to perform can reasonably be expected to result in a significant physical injury, or in loss of life. Any such use is entirely at your own risk, and you agree to hold Licensor, its principals, shareholders, officers, directors, employees, affiliates, contractors, agents, subsidiaries, and parent organizations harmless from any and all claims or losses relating to such unauthorized use. In addition to the foregoing, you agree to hold Licensor, its principals, shareholders, officers, directors, employees, affiliates, contractors, agents, subsidiaries, and parent organizations harmless from any and all claims or losses relating to (i) any breach of this License by or on behalf of Purchaser; (ii) the negligence, recklessness, willful misconduct of, or breach of a statutory duty by, Purchaser, its affiliates or agents; or (iii) any activities or actions taken by or on behalf of Purchaser or its affiliates with respect to this License and the software. There are no third party beneficiaries of any promises, obligations or representations made herein.

7. Support Policy. Lonza offers basic support while the WinKQCL™ Software is within its support period, as set forth below. Basic support is provided through Lonza's Scientific Support group. Basic support encompasses those support needs within the capabilities of Scientific Support. Examples of basic support include, but are not limited to: assistance setting up products, accessories, and templates; running validation and endotoxin tests, trending data; configuring the software through the WinKQCL™ application user interface, and pre-installation and installation questions covered within the scope defined in the software manual. Support needs outside of the topics of the manual, or outside of the capabilities of the WinKQCL™ application, may require escalation to advanced support.

Lonza shall make available basic technical support of the WinKQCL™ Software for up to three (3) years from the release date of that version, or six (6) months after the next major version of the software is released, whichever is later. Lonza may, at its option, make available basic support after expiration of the three (3) year period, but cannot ensure support will be possible and shall have no liability in the event it does not. Support provided after expiration of the support period may require additional fees for service or an extended support contract. If a resolution through support is not possible after expiration, then upgrading to the current major version of the software may be required.

Advanced Support encompasses those support needs that are beyond the capabilities of Lonza Scientific Support. Advanced Support may require a fee for service (including travel costs) and/or separate support contract whether support is provided during or after the support period defined above. Examples of Advanced Support include, but are not limited to, the following: report customization, database setup, network and firewall troubleshooting, scripted installation support, custom features, application virtualization setup and troubleshooting, Active Directory® integration, security troubleshooting, database maintenance setup and troubleshooting, and import or export setup with external systems such as environmental monitoring systems or laboratory information management systems.

8. Operating System and Database Compatibility. Lonza supports versions of Microsoft® Windows® and Microsoft® SQL Server® that are publicly available and under Microsoft® Mainstream Support during the time a particular version of WinKQCL™ Software is under development. Microsoft® software updates and service packs should be applied for compatibility with newer version of WinKQCL™ Software. See the WinKQCL™ Compatibility Matrix for more detailed information.

9. Trademark. WinKQCL™ is a trademark of Licensor. No right, license, or interest to such trademark is granted hereunder, and you agree that no such right, license, or interest shall be asserted by you with respect to such trademark.

10. Governing Law and Jurisdiction. This License shall be construed and governed in accordance with the laws of the State of Maryland. Exclusive jurisdiction and venue for all matters relating to this License shall be in courts located in the State of Maryland, and you consent to such jurisdiction and venue.

11. Merger. This License is the complete statement of the agreement between the parties on the subject matter, and merges and supersedes all other or prior understandings, purchase orders, agreements and arrangements.

12. Severability. Should any term of this License be declared void or unenforceable by any court of competent jurisdiction, such declaration shall have no effect on the remaining terms hereof.

13. No Waiver. Any waiver by Licensor of any violation of this License by you shall not constitute, nor contribute to, a waiver by Licensor of any other or future violation of the same provision, or any other provision, of this License.
